Applicable Tripline Part Numbers: **Models 6072, 8096, 9011, 1012, 1214, 1518, 1821 - BB380**
 Models 2024, 2732, 3542, 4453 - BB386
 Models 5566, 5870, 6578, 7590 - BB387
 Models HL5000, HL7600, HL9800 - BB390

Important: Tripline Part no. **BB385** is now obsolete and inactive, use **BB386** or **BB387**

OVERVIEW: As of January 2004, SEI industries will supply Triplines that conform to a new improved design specification. The new Triplines are fully retrofittable replacements for the old design, and do not require any additional parts for installation. The improvements are focused on improving the durability of the catch bullet stack and cable immediately below the lower swage.

**OLD
TRIPLINE**

**NEW
TRIPLINE**

New tripline installed in Control Head. Lug Plates installed. **Note:** Control Heads built after January 2004 will not require Lug Plates.
